TSA in IRAN

In 2002 with the invitation by Iran Touring and Tourism Organization (ITTO) and The cooperation of some organizations including Statistical Center of Iran, the preparation of the tourism satellite account began in Iran. The result was 6 study reports with the following titles:

1. Feasibility study for compiling TSA
2. Tourism Satellite Account framework
3. Practical Principles of TSA
4. The exist situation of producing tourism statistics in Iran
5. The results of tourism statistical survey in Iran
6. The experiences of other countries and the World Tourism Statistics

Preparation of tourism satellite account project was stopped in 2003. But SCI for improving the preparing of tourism statistics conducted...
National Tourism Survey

National Tourism survey, including domestic tourists and outbound tourists. This survey has been implemented by statistical center of Iran in 2011, 2012, 2013, 2014 for spring and summer. By this survey, we can approximately complete tables 2 and 3.

Compilation of National Accounts in the Statistical Center of Iran

- National Accounts estimates is a requirement and necessity for preparation of TSA.
- In the SCI, compilation of National Accounts is being done in accordance with the SNA1993.
- Of the three different approaches recommended in SNA, SCI measures the value added for all economic activities through two approaches, production and expenditure.
- In the following, The sources used to prepare the national accounts are expressed.
Accommodation

Resources:
- Accommodation services survey
- Household expenditure and income survey
- Data collected from cultural Heritage Organization of provinces

Data collected:
- Data for survey framework in details, the value of outputs, inputs and capital formation
- Average annual household expenditure for accommodation services
Food and Beverage serving industry

Resources:
- Survey of Food and beverage serving establishments
- Household expenditure and income survey

Data collected:
- Data for survey framework in details, the value of outputs, inputs and capital formation
- Average annual household expenditure for food and beverage services
Road passenger transport

Resources:
- Survey of road passenger transport establishments
- Statistical Yearbook of road transport

Data collected:
- Data for survey framework in details, the value of outputs, inputs and capital formation
Railway passenger transport

Resources:
- Statistical Yearbook of railway transport
- Financial Statements of Companies engaged in railway transport

Data collected:
- Detailed data on incomes, expenditures and capital formation
Water passenger transport

Resources:
- Financial Statements of Companies engaged in water transport

Data collected:
- Detailed data on incomes, expenditures and capital formation
Air passenger transport

Resources:
- Financial Statements of Companies engaged in air transport

Data collected:
- Detailed data on incomes, expenditures and capital formation
Travel agencies

Resources:
- Survey of support activities for air transportation (air travel agencies) and tour operator agencies

Data collected:
- Data for survey framework in details, the value of outputs, inputs and capital formation
Cultural industry
Sports and Recreational industry

Resources:
- Survey of Cultural and artistic establishments
- Survey of sport and Recreational establishments
- Household expenditure and income survey

Data collected:
- Data for survey framework in details, the value of outputs, inputs, and capital formation
**Conclusion**

Based on this information, We can prepare some tables of TSA as below:

<table>
<thead>
<tr>
<th>TSA 2008 tables</th>
<th>Compiled</th>
<th>Not compiled</th>
<th>Planned</th>
</tr>
</thead>
<tbody>
<tr>
<td>Table 1: Inbound tourism expenditure</td>
<td>x</td>
<td>x</td>
<td></td>
</tr>
<tr>
<td>Table 2: Domestic tourism expenditure</td>
<td>x</td>
<td>x</td>
<td></td>
</tr>
<tr>
<td>Table 3: Outbound tourism expenditure</td>
<td>x</td>
<td>x</td>
<td></td>
</tr>
<tr>
<td>Table 4: Internal tourism consumption</td>
