REGIONAL WORKSHOP ON THE 2020 WORLD PROGRAMME ON POPULATION AND HOUSING CENSUSES: INTERNATIONAL STANDARDS AND CONTEMPORARY TECHNOLOGIES

Session 7: Planning and Implementing a Census Geospatial Programme

Experience of the Kyrgyz Republic

Ankara, Turkey 12-15 March, 2019
Features of the population and housing census of the Kyrgyz Republic in 2020

Model block of questions on labor migration of the member states of the EAEU and the CIS

Sustainable Development Goals Indicators (SDGs) – integration of disability questions

Utilization of administrative data of the SRA within the preparatory period (databases: address register, real estate register and GIS)
Inter-agency collaboration

The inter-agency order

The inter-agency working group has been established to prepare and conduct the census:

- National Statistical Committee
- State Registration Service
- State Agency of Local Government and Inter-Ethnic Relations
- State Committee of Information Technologies and Communications
Portal www.darek.kg

Portal www.darek.kg - a single source of addressing information for all state bodies, as well as legal entities and individuals of the Kyrgyz Republic.

The portal specifies the names of the streets, which will determine and clarify the addresses.
New layer “Нацстатком” of the portal www.darek.kg
Formation of registrar sites
Formation of census departments, instructor and counting areas

- Census departments
- Instructor areas
- Enumeration areas
Key points

- The feature of the upcoming population and housing census in 2020 is the use of administrative data and geographic information systems

- For the pilot census of the population electronic registrar plots were created, the formation of the Registration Form “List of living premises and non-residential premises where people can live” was automated

- This helps update administrative data during the preparation for the PHC 2020
Thank you for your attention!
