METHODOLOGY FOR PAKISTAN’S 6th POPULATION AND HOUSING CENSUS

BY
Habib Ullah Khan,
Pakistan Bureau of Statistics
POPULATION CENSUS ORGANIZATION (PCO)

- Established in 1950 under the Census Act, 1949 as part of Ministry of Home Affairs (Interior)

- After 1972 Census, Census Organization was established on permanent footing as an attached department of Ministry of Interior

- Department of Registration and Census Organization were merged in 1976 and named as “Census & Registration Organization”

- In 1978, the Census Organization was renamed as Population Census Organization and made an attached department of Statistics Division
Under Statistics Re-organization Act- 2011, Three Organizations namely Federal Bureau of Statistics, Population Census Organization and Agriculture Census Organization have been merged together and new Organization called Pakistan Bureau of Statistics has been formed.

This Organization has been entrusted the job of conduct of Population & Housing Census in the country.
FUNCTIONS

- Planning and execution of decennial Population & Housing Census.

- Tabulation of data to meet specific demands of data users.

- Analysis of Census data and demographic research.

- Intercensal sample studies / surveys in related areas.

- Supply of census data to the data users.

- Dissemination of data in different formats.
IMPORTANCE OF POPULATION CENSUS

- Population and Housing Census is a stock taking of human resources of a country and their living conditions at one point of time.

- Provides basic data on demographic, social, economic and housing variables about each person and each housing unit.

- Serves as benchmark for all socio-economic development plans, administrative activities, demographic research and projection of population to meet future needs.
POPULATION CENSUS

DEFINITION

Population Census is the total process of collecting, compiling, evaluating, analyzing and publishing/disseminating demographic, social and economic data pertaining to all persons living in a country or a well defined territory, at a specified time.

ESSENTIAL FEATURES

i) Individual Enumeration

ii) Universality within a defined Territory

iii) Simultaneity to well defined Reference Period

iv) Defined Periodicity
Census also meets Constitutional requirements:

- Provides basis for political representation to the National Assembly and Provincial Assembly under article 51 (3) of the Country’s Constitution.

- Population numbers are used for distribution of funds to the federating units by the National Finance Commission formed under article 160 (2) of the Constitution.

- Determines quota for recruitment to all civil posts in Federal Government.
LEGAL FRAME WORK

- The Act provides appropriate authority to Federal Government for:
  
  - Fixing / declaring census dates.
  
  - Formulate census questionnaires to be notified in the official gazette.
  
  - To maintain confidentiality of the individual information.
  
  - To seek assistance from any quarter for census work.
  
  - To penalize any wrong doers.
**HISTORY OF CENSUS TAKING**

- First regular Census in the areas now comprising Pakistan was held in 1881. Since then regular Censuses have been conducted after every ten years.

- After independence five censuses have been undertaken in 1951, 1961, 1972, 1981 and the last in 1998.

- 6th Population and Housing Census was scheduled to be held in two phases i.e. House Listing in April 5-19, 2011 and Population and Housing Census in August/September, 2011.

- But due to law & order situation in some parts of the country and preparation of Electoral List, task could not be completed.
SCOPE OF CENSUS

i) Area to be covered.
Census covers entire territory of country including Tribal Areas as well as Azad Jammu & Kashmir and Gilgit-Baltistan.

ii) Population to be covered.
All persons living in the country at the time of Census will be enumerated. Foreign nationals will also be enumerated except diplomatic personnel and their families.

iii) Topics of information (Questionnaire).
Topics to be covered in the Census depends on national needs. Questionnaires have been finalized through consultation with data users and experts.
CENSUS METHODOLOGY

- **Enumeration Method:** Canvasser method is used in which information is collected and recorded by the enumerator through door-to-door visit.

- **Population Count:** Population to be counted at usual place of residence (De-jure method) for comparison over the past. Population by district of birth also to be counted and published.
TOPICS TO BE COVERED

➢ DEMOGRAPHIC & SOCIAL CHARACTERISTICS
   Age - Sex - Relationship to the head of household - Marital status - Religion - Mother tongue (language) - Nationality

➢ EDUCATIONAL CHARACTERISTICS (for 5 years+)
   Literacy status - School / college attendance - Level of education completed - Field of education

➢ GEOGRAPHICAL/MIGRATION CHARACTERISTICS
   District of birth - Duration of continuous residence in district - District of previous residence - Reason of migration
TOPICS TO BE COVERED (Contd.)

➢ ECONOMIC CHARACTERISTICS (for 10 years +)
  Type of activity - Occupation - Industry - Employment status - Reason of unemployment

➢ FERTILITY AND MORTALITY (Females 15-49 Years)
  No. of children ever born by sex
  No. of children still living by sex
  No. of children born during last 12 months by sex
  No. of children still living by sex

➢ MISCELLANEOUS
  Nature and Reason of disability
  Holding of NIC for persons 18 years plus
**TOPICS TO BE COVERED**

**HOUSING CHARACTERISTICS**

Information about dwelling units such as:
- Number of rooms
- Ownership Status
- Sex of Owner
- Period since constructed
- Construction Material used in outer walls & roofs.

Source of Drinking Water

Source of Light and Cooking Fuel being used.

Availability of proper Kitchen – Bathroom - Latrine and Drainage system

Media of Information such as T.V., Radio, Newspaper, Telephone, Mobile and Computer / Internet.
PREPARATIONS FOR 6th CENSUS
Three separate questionnaires (forms) have been prepared.

- Form 1 to be used for household listing (Phase-1)

- Form-2 (short form) is meant for collection of individual information on core questions and housing characteristics. (Phase-2)

- Form-2A (long form) which contain all questions of short form and some additional questions on complex and sensitive topics to be canvassed from sample households. (Phase-2)
<table>

DELIMITATION OF CENSUS AREAS

➢ To ensure complete coverage of area/population and for effective field supervision, the country is traditionally delimited on a four-tier system which include:

- Census District (Entire Tehsil, big urban localities and Cantt.)
- Census Charge (Qanungo/STC, Town/part of Town)
- Census Circle (Patwar Circle/TC, part of urban locality)
- Census Blocks (mauza/part of mauza, area of approx. 200 HH.)

➢ The boundaries of census areas coincide with existing administrative set up of Districts, Tehsils/Talukas, Qanugo Halqas, Patwar Circles and Mauzas / Dehs in rural areas and Municipal/Town Committees and Cantonments in urban areas.
For complete coverage and effective field supervision, the country has been delimited on a four-tier system, into:

- 424 Census Districts (Tehsils/ Towns and Cantts.)
- 3203 Census Charges (Qanun go/ part of Town/Cantt.)
- 22398 Census Circle (Patwar Circle/part of Town /Cantt.)
- 146230 Census Blocks (Village, part of Village/Town)

Census block roughly comprises of 200 – 250 houses

One block is assigned to one enumerator.

</table>
PREPARATION OF MAPS

- Maps of each admin district as well as census area have been prepared/updated.

- Maps of rural and urban areas have been prepared. Maps are being verified through satellite image (Google Earth).

- These maps showing the physical landmarks of census blocks will be provided to the Enumerators and Supervisors.
Census operation requires a field force of 175,000 as Enumerators and Supervisors.

The services of school Teachers and Employees of other Government Departments are hired as Enumerators / Supervisors.

Females are also having hired in the census operation as Enumerators and Supervisors.
TRAINING OF FIELD STAFF

- Training is an important aspect in the execution of census and collecting accurate data. Quality of census data depends on proper training of field staff.

- A core of master trainers (12 – 15) taken from senior officers of PCO is prepared and trained.

- Master trainers train about 650 trainers taken from BPS-17 officers of PCO, FBS and Education Department.

- These trainers will impart training to approx. 175 thousand Enumerators and Supervisors at District and Tehsil level in about one month time.

- Manual of instructions have been prepared for Enumerators and Supervisors.
ENUMERATION ACTIVITIES

- House numbering / household listing to identify residential and non-residential units (commercial, educational, etc.) and to prepare inventory of households.

- Census enumeration through door to door visit and interaction of enumerator with the head or responsible member of household.

- Supervision/monitoring to ensure accuracy in recording of information. Each supervisor to fill certain number of forms of each block independently.

- Retrieval of filled-in documents according to delimitation of areas under security cover.
FIELD OPERATION PLAN

Field Operational Plan for all field activities has been prepared for guidance of Census Officer/Supervisory staff highlighting the following:-

i. The role/responsibilities of all the filed staff i.e DCOs, CDOs down to the level of Enumerator.

ii. The Geographic/Cartographic activities such as up-dating of area list, updating of maps, delimitation of census area, etc.

iii. Appointment of field staff i.e., CDOs, Charge Superintendents, Circle Supervisors & Enumerators.

iv. Arrangement for the training of field staff (Supervisors and Enumerators)

v. Distribution of training / census field used material.

vi. Census enumeration such as house listing, big count and sample count.

vii. Retrieval of census material.
PUBLICITY

- Publicity plays an important role in projecting the importance of census. An effective plan need to be launched to educate the people for their greater participation and to motivate the field staff.

- A comprehensive plan will be implemented through Ministry of Information which will include interviews by Secretary, Messages of the President and Governors, Jingle on Census, advertise-papers, etc.

- Sensitization workshops will be held at Provincial capitals to brief the Provincial functionaries and seek their cooperation.

- Similar orientation workshops will be held for the census district officers at regional level.

- Publicity material (posters, brief news, advertisements, etc.,) will be prepared and displayed throughout the enumeration period.
Filled in ICR Forms will be manually edited.

The fields of Names, Sex, Age, Marital Status and Education Level of the respondent will be cross examined.
DATA PROCESSING ACTIVITIES

- Servers, Scanners, personal Computers and other necessary equipment to be used in data processing have been procured.

- Data Processing Centers at Islamabad, Lahore & Karachi have been established.

- Electronic Data Validation will be carried out.
DATA PROCESSING

- Manual editing of filled-in census forms to check area codes and basic data items before data entry.
- Coding of open ended questions on occupation, industry, district of birth and migration, etc.
- Data entry - accurate and speedy transfer of data for further processing (through ICR).
- Computer editing and imputation of missing values.
- Preliminary tabulation and consistency checking.
- Final tabulation according to pre-determined tabulation plan.
DATA ENTRY

- Intelligent Character Recognition (ICR) technology will be used in 6th Population & Housing Census to ensure accuracy and timeliness, which has the capacity of scanning hand-written alphanumeric characters.
Tabulation Plan of 6th Population & Housing Census has been prepared comprising 46 Tables for Population Characteristics and 14 Tables for Housing Characteristics.
PUBLICATION OF CENSUS RESULTS

➢ Provisional Results in 60 days

➢ Advance tabulation on important characteristics.

➢ Regular reports at District, Provincial and National level.

➢ Special reports on big cities and selected areas.

➢ Subject-wise / analytical reports on important topics.

➢ Census Atlas giving visual presentation of census data.
CENSUS REPORTS

- National and Provincial Census Report 05
- District Census Reports 114
- Reports of FATA and Agencies 08
- Reports of Azad Kashmir and Districts (restricted for official use) 11
- Reports of Gilgit Baltistan and Districts (restricted for official use) 08
- Total 146

These reports consist of five parts:
(i) General Description of the Area
(ii) Broad Analysis of Population Data
(iii) Broad Analysis of Housing Data
(iv) Statistical Tables
(v) Additional information in the form of Annexure
DISSEMINATION OF CENSUS DATA

- Census reports are supplied to data users on complementary basis.
- Data on important variables placed on the web-site of PCO i.e., www.census.gov.pk which is updated from time to time.
- Detailed data on population and housing census - 1998 available on CD and supplied on payment.
- Supply of data to National and International Agencies and general data users is a continuous activity.
- Special Tabulation of data are prepared to meet specific demands of data users.
THANKS
