INFORMATION NOTE
INFORMATION NOTE

1. Introduction
We welcome all participants to the Training Program on “Statistical Database Design and Visualization Tools Development”.

The aim of this Information Note is to provide participants to the Training Program on “Statistical Database Design and Visualization Tools Development” with all the necessary information to guide them during their stay in Ankara, Turkey.

The Third Session of the Statistical Commission of Organisation of Islamic Cooperation (OIC-StatCom), held on 10-12 April 2013 in Ankara, Turkey, has welcomed the initiative of SESRIC in offering the National Statistical Offices (NSO) of OIC Member Countries its Motion Chart Module (SMC) to enable them present their data in a visual way so as to improve the analytical capabilities and effective use of data in evidence based policy making.

This technical training will be provided for the NSOs of OIC member states. To be delivered by SESRIC experts, the training aims at introducing statistical database design principles with a focus on data visualisation tool development, and in particular guiding the participants on how to deploy the SESRIC Motion Chart (SMC) Module within the IT infrastructure of their organisations. At the end of the training programme, the SMC module codes will be shared with the participants.

Particularly, this training includes:

- Statistical Database Design
  - Relational Database Systems and the Life Cycle
  - Database Management Principles
  - Good Database Design Characteristics
  - Statistical Database Requirements Analysis
  - XML Data Source and Structure, XML in Web Services, XML with Favourite Programming and Mark-up Languages
- Visualization Tools Development
  - Visualisation Tools Essentials
  - Using Flex in Visual Programming
  - Visualization of Time Series Data
  - SESRIC SMC Module

At the end of the workshop, participants will be equipped with necessary information to deploy the SMC Module within their IT setting.
