## FORESTRY STATISTICS

- **CONTENT**

- Overview
- Geographical coverage
- Method
- Data Dissemination
- Activities for data availability
- Future Plans

- Forestry Statistics are produced by General Directorate of Forestry (DGF), Ministry of Forestry and Water Affairs (MoFWA). Forestry data are collected and published in collaboration with DGF and TurkStat.
- Forestry statistics include data on:
  - forest area
  - wood and non-wood forest products
  - forest fires, Silviculture etc.

- **Data on forest fires have been collected since 1937; other statistics since 1963**
- **Data on forestry statistics is sent by DGF to TurkStat. All data is available at DGF's website: [www.ogm.gov.tr](http://www.ogm.gov.tr)**

- **Geographical coverage:**
- **Our forests are managed by**
- **27 Regional Directorate of Forestry,**
- **243 Forest Management Directorate, and**  
**1376 forest management units.**

- **Method :**

**Data collection techniques:** Data on Forestry statistics are compiled from administrative records of the General Directorate of Forestry.

- **Data Dissemination**
- **Forestry statistics are sent by MoFWA to the international institutions**
- **For “Temperate and Boreal Forest Resources Assessment” (TBFRA), some forestry information sent to FAO**

- For “Joint Forest Sector Questionnaire” (JFSQ), all information sent to Inter-secretariat Working Group of FAO, UNECE, ITTO and EUROSTAT.
- Studies for improving standards and data quality for JFSQ continue.

- **Activities for data availability**
- **Forest inventory is carried out annually in one-tenth of total forest area**
- **Compilation of data on forest management & silvicultural plans implementation, forest fires, forest offences, wood production, etc.**

- **Future Plans and Projects**
- A project namely “Development of Forestry Information Systems in Sustainable Forest Management” was initiated at the beginning of 2006 to get information on forest conditions. In the future, forestry statistics will be developed with about subjects.

Description	Unit	Annual production amount	
		2012	2013
Tomruk (Log)	m <sup>3</sup>	5 027 738	4 629 829
Tel direk (Telephone pole)	m <sup>3</sup>	59 613	32 641
Maden direği (Mining pole)	m <sup>3</sup>	692 944	541 771
Sanayi odunu (Other industrial wood)	m <sup>3</sup>	874 793	701 688
Kağıtlık odun (Pulpwood)	m <sup>3</sup>	2 333 651	2 196 434
Lif-yonga odunu (Fibre-chip wood)	m <sup>3</sup>	5 424 794	5 551 397
Yakacak odun (Fuel wood)	ster	6 432 674	5 981 703
Çubuk, işlenmemiş (Stick, in the rough)	ster	2 541	749
Sırık (Thin pole)	ster	14 442	18 969
Reçine (Resin)	kg	548 010	25 938
Çıra ve Çıralı Çam Kök (Resinous wood)	kg	289 000	23 407 000
Şimşir (Buxus)	kg	374 800	1 325
Defne yaprağı (Laurus nobilis)	kg	24 388 131	15 178 927
Kekik (Thymus)	kg	1 977 951	1 874 698
Adaçayı (Salvia sp.)	kg	1 429 771	324 913
Ihlamur (Tilia sp.)	kg	56 161	29 150
Mantar (Natural mushroom)	kg	99 426	49 624
Çiçek soğanları (Flower bulbs)	kg	51 967	10 729
Kaçak kesilen yakacak odun (fuel wood without permission)	ster	4 300 000	4 000 000
	m <sup>3</sup>	3 224 000	3 000 000
