HARMONISED DATA COLLECTION

Harmonised data collection (HDC) is a data collection study coordinated by Eurostat to gather common BD series from countries

- Active enterprises defined by having turnover or persons employed at any time during the reference year
- Figures about births, death, survival.
 - ❖ *By activity, by legal form, by employee size class*
- Removal events due to administrative registrations, practices in national business registers, e.g. Reactivations, merger, breakup etc.

Datasets, characteristics and breakdowns

- Population of active enterprises
 - ❖ Either turnover or employment at any time during the reference period
- Economic activities (NACE Rev. 2)
 - ❖ *NACE sections B to N, (P to S provisional)*
 - ❖ *exclusion of sections A, O and group 64.2, Agriculture, forestry and fishing, Public administration and defence, Holdings, exclusion of Non-Profit Institutions Serving Households*

Datasets, characteristics and breakdowns

Breakdown by **legal form** - no survival data in this series

SP	Sole proprietor: personally owned and no limit to personal liability
LL	Limited liability company: private or publicly quoted joint stock companies with limited liability for those owning shares
PA	Partnerships and other legal forms: personally owned limited and unlimited liability partnerships. Included are also other level forms such as cooperatives, associations etc.
TT	Total

Datasets, characteristics and breakdowns

Breakdown by employee size class

Code	employees
1	0
2	1-4
3	5-9
4	10 or more
30	total

Datasets, characteristics and breakdowns

Survival

- Refers to the populations of real births of previous years
- Survivals up to five years are followed

Datasets, characteristics and breakdowns

Main variables in data collection

- Enterprise births
- Enterprise deaths
- Survival of newly born enterprises
- Related employment
 - ❖ *Employees*
 - ❖ *Persons employed*
 - ❖ *Employment and survival*

Datasets, characteristics and breakdowns

SERIES

9A: data collection broken down by NACE activity and *legal form*

9B: data collection broken down by NACE activity and *employee size class*

9C: estimated death data broken down by NACE activity and *legal form*

9D: estimated death data broken down by NACE activity and *employee size class*

Datasets, characteristics and breakdowns

HDC Series (for employer enterprises)

9E – Data collection on employer enterprises with breakdown by NACE activity and legal form

9F – Data collection on employer enterprises with breakdown by NACE activity and employee size class

9G – Data collection on employer enterprises with breakdown by NACE activity and legal form (estimated death data)

9H – Data collection on employer enterprises with breakdown by NACE activity and employee size class (estimated death data)

Datasets, characteristics and breakdowns

HDC Series (for high growth enterprises)

9M – Data on high growth enterprises with breakdown by NACE activity

9P – Preliminary Data on high growth enterprises with breakdown by NACE activity

Thank you
