TurkStat's Contribution to Voluntary National Review (VNR) and Statistical Annex

- VNR Report in 2016
(Included the first ever SDGs indicators preliminary inventory analysis)
- VNR Report in 2019
(Included 10 pages statistical progress report as well as a Statistical Annex)

Metadata profile preparation prior to web portal

- Annexed to Sustainable Development Indicators New Releases (in 2019 and 2020), only “statistical data” and “statistical data description” were provided.
- In the upcoming web portal, more metadata info is needed than data description. Up to this point, possible metadata components were identified . But these studies are subject to change (not finalised).

Statistical Capacity Building (Workshops in 2019 and 2018)

- Sustainable Development Indicators Workshop in December 2018 aimed to establish focal points for each indicators, raise awareness and finalise inventory analysis for the forthcoming first news release (19 February 2019).
- But last year's workshop in November 2019 additionally examined these aspects as well:
 - Capacity development need for non produced indicators
 - New and proxy indicator suggestions that will suit Turkey in the national context.

TurkStat received following suggestions regarding SDGs :

Statistical Capacity Building (Workshops in 2019 and 2018)

Examples of the Outcomes from Workshop (2019):

Indicator Code	Indicator Name	Proxy / New
2.1.1	Proportion of the population living below the hunger threshold	Proxy
5.b.1	Proportion of individuals who use a mobile telephone within last three months, by sex	New
8.10.2	Proportion of adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider	Proxy
9.3.1	Proportion of small-scale industries in total industry value added	New
9.3.2	Proportion of small-scale industries with a loan or line of credit	New
14.1.1	Coastal eutrophication (increase of nitrogen and phosphate in water) index and floating plastic debris density	New
