Data Source

- Road Motor Vehicle Statistics has been compiled since 1933.
- The main data source is the administrative records of traffic registration offices in towns and provinces. These offices are dealing with registration and withdrawn processes of the vehicles and they are attached to Turkish National Police.

Data Compiled

- Data of the vehicles which took registration licence or withdrawn from traffic is compiled. This data includes information on type, trademark, model year, fuel type, usage, engine volume, etc.
- This data is compiled in line with the agreements for Common Questionnaire (UNECE/ITF/Eurostat) and Regional Questionnaire (Eurostat)

Data Compilation Method

- Road Motor Vehicle Statistics had compiled from ‘The Application and Action Form of Vehicles for Traffic Registration (TR-A-FI)’ which were send by Traffic Agencies to our institution until 2004.
- Since 15 April 2004, data is gathered in magnetic forms, which is formed by Turkish National Police by transferring TR-A-FI forms to data base,

Details of Compiled Data

- Total road motor vehicles and non motorized vehicles registered to the traffic,
- Registered road motor vehicles and non motorized vehicles during the month,
- Road motor vehicles and non motorized vehicles withdrawn from traffic,
- Road motor vehicles and non motorized vehicles handed over (since 2010)
